AELP pallet beams provide an affordable solution to weigh oversized or bulky items. Equipped with rugged built-in wheels and handles, AELP pallet beams are easy to set up and move. The low-profile beams permit easy accessibility to simplify loading, weighing and unloading. AELP comes with a 15-foot/5-meter shielded cable, allowing the indicator and beams to be positioned as needed. Four OIML-approved load cells provide precise, consistent measurements. The AELP pairs well with Adam's GK or AE 403 indicators.
